DIVIDEND

Your Directors do not recommend a Dividend for the year ended 31st March 2009 due to heavy loss during the year under review.

REVIEW OF OPERATIONS

Your company has two reportable segments, the Realty and the Textile.

1. Realty Segment

Tirupur has undergone major transformation in the last year. Apart from remaining a driving force for exports business, it has now become a district headquarters for sustainable economic growth. With a strong government in the centre, resilient economic factors and favorable policies from the government especially on the housing segment are expected to enable growth of real estate sector in India.

At present, the realty business of your company has been to develop its high-value lands it owns. As the shareholders are aware, "Prime Enclave Vistas" residential multi-storied apartments constructed in partnership has become now a prestigious address to own in Tirupur. The construction of a multi-storied Commercial Complex adjacent to the Prime Enclave Vistas is expected to be taken up shortly.

Under a joint collaboration with FDI investors, the construction of independent luxury villas, offices and shopping spaces have been planned. The first phase in the project will be a virtual landscape for the luxury villas (captioned THEONYX) designed to match international standards engulfed in tropical greenery, has caught the imagination of the buyers and has evinced good response.

2. Textile Segment

The economic recession in developed markets has had a very severe impact on the Indian textile segment. The downturn impacted consumer spending, thereby resulting in scaling down of both the operations and new orders by many international buyers and retailers. The Indian cotton yarn industry has in the last two years been under tremendous pressure also on account of intense competition, significant debt-funded capacities, and burgeoning operational costs. The industry looks forward to the world economy returning to normal, which in turn depend on intertwined factors such as the fluctuations of consumer and business confidence and the volatility of global capital markets. The revival of the spinning industry in the short-to-medium term will depend largely on demand recovery in international markets and improvement in macro-economic indicators for the domestic market.

Your company has taken proactive steps to achieve favorable economies of scale. It has emerged today with a strong capital structure after having discharged its term debts and restructuring its working capital base. It has reinvigorated the Post-Spinning Unit at Sathyamangalam and the Garments factory at Tirupur into having a greater focus on value-added products.

FIRE AT GARMENT STORAGE GODOWN

On 8th May 2009 a fire broke-out in a storage godown gutting the finished garments and fabrics stocked therein valued at Rs.523 lacs. The goods are adequately insured. Claims made are under process by the insurers. The incidence did not affect the operations of the Garment factory and the Unit has been functioning uninterruptedly.
