LETTER FROM THE CHAIRMAN

Mr. P. D. Patodia
Chairman and Managing Director

Dear Shareholders,

I am very happy to share with you the performance of your Company for the financial year 2017-18.

Indian economy at the start of 2017-18 felt the continuing effects of demonetization which were further compounded by the implementation of GST in the 2nd quarter. This coupled with high Non-Performing Assets accumulated with Public sector banks worsened the liquidity in the economy. However, in October, the government announced a mammoth recapitalization plan of Rs 2.11 lakh crore for public-sector banks. This is expected to improve the liquidity position going ahead. Despite these issues India's GDP recovered and is estimated to have increased at 6.6% in 2017-18 and is expected to grow 7.3% in 2018-19.

During the year, the Indian residential market has breached new lows in terms of supply and sales for every successive year of this decade. Despite the massive need for housing that India is facing, huge unsold inventories caused by a prolonged focus of the developers on the wrong apartment ticket sizes have resulted in the poor performance of the residential real estate industry. The government aggressively tried to push a culture of transparency through measures such as demonetizations, Goods and Services Tax (GST) and the Real Estate (Regulation and Development) Act, 2017 (RERA) which are expected to alter the course of the industry in the long term.

A robust establishment of skill-based manufacturing industries has led to fast paced urbanization in south India, housing around 102.8mn people in just urban areas (27.3% of India's total urban population). Tamil Nadu, Andhra Pradesh, Karnataka and Kerala house close to 50% of the total number of SEZs in the country. Together with industrial growth, IT remains the dominant driver for the real estate market.

The growth potential in southern India is humongous. Tamil Nadu contributes approximately 10.93% to India's overall GDP and ranks 2nd among the 36 Indian States & Union Territories in terms of GDP contribution. Contribution of the southern states of India is nearly 31% of the GDP of India. The Real Estate sector in the South is also picking up on account of growth in sectors like Auto, Consumer goods, Power consumption & Cement in the recent past.

Your Company is mainly engaged in the Real Estate sector in South India. Your Company is mainly focused in the Tirupur city of the state of Tamil Nadu and with the opening up of the Affordable Housing segment due to Government push, your Company is exploring opportunities in the same. Your Company is also aggressively seeking out opportunities in various parts of the country.

Your Company's consolidated revenue for FY18 was Rs. 97.73 Cr. with EBITDA of Rs. 8.33 Cr. In the Textile division, our revenues in FY18 were Rs. 56.32 Cr with an EBIT of Rs. 0.46 Cr.

Best regards,

P.D. Patodia
Chairman and Managing Director

MANAGEMENT DISCUSSION AND ANALYSIS

Indian Economy

Indian economy at the start of 2017-18 felt the continuing effects of demonetization which were further compounded by the implementation of GST in the 2nd quarter. This coupled with high Non-Performing Assets accumulated with Public sector banks worsened the liquidity in the economy. However, in October government announced a mammoth recapitalization plan of Rs 2.11 lakh crore for public-sector banks. This is expected to improve the liquidity position going ahead. Despite these issues India's GDP recovered and is estimated to have increased at 6.6% in 2017-18 and is expected to grow 7.3% in 2018-19.

Inflation, especially retail inflation that hit a 17-month high of 5.21% in December 2017, moderated a bit in January 2018 to 5.07%. Further moderation in retail inflation continued in the following months. In March, the CPI stood at 4.28% compared to 4.44% in February.

With the improvement in the economic scenario in the latter part of the year and with India rising 30 places in the World Bank's ease of doing business report, there have been an increase in investments in various sectors of the economy. The M&A activity in India increased 53.3% to US\$ 77.6 billion in 2017 while private equity (PE) deals reached US\$ 24.4 billion.

Indian Real Estate

The Indian residential market has breached new lows in terms of supply and sales for every successive year of this decade. Despite the massive need for housing that India is facing, huge unsold inventories caused by a prolonged focus of the developers on the wrong apartment ticket sizes have resulted in the poor performance of the residential real estate industry. The government aggressively tried to push a culture of transparency through measures such as demonetizations, Goods and Services Tax (GST) and the Real Estate (Regulation and Development) Act, 2017 (RERA) which are expected to alter the course of the industry in the long term.

NCR and Mumbai saw sales numbers increased by 21% and 19% YoY respectively during H2 2017 but this can be attributed to the extremely low sales during H2 2016 caused by the demonetization drive carried out by the government.

Indian Market Snapshot (No of Units)

PRIME URBAN DEVELOPMENT INDIA LIMITED

As seen in the above figure the affordable housing drive promoted by the government has started to yield results as the house price to income ratio has progressively decreased from 2010 to 2017 in the major metropolitan cities in India.

Private equity and debt investments in India's real estate sector grew 12 per cent year-on-year to US\$ 4.18 billion across 79 transactions in 2017. In 2017, M&A deals worth US\$ 3.26 billion were made in India's real estate sector. Private equity investments in Indian retail assets increased 15 per cent in CY 2017 to reach US\$ 800 million. India is expected to witness an upward rise in the number of real estate deals in 2018, on the back of policy changes that have made the market more transparent.

The real estate sector has started showing signs of improvement in FY18 as can be seen from the data on Housing sales. As per the latest available data the Housing sales in the month of April have increased by a good 25% as compared to the previous month in the country's 7 major cities as per a report published by a known property consultant (ANAROCK).

Investment Destination

The Indian real estate sector has witnessed high growth in recent times with the rise in demand for office as well as residential spaces. Private equity investments in real estate are estimated to grow to US\$ 100 billion by 2026 with tier 1 and 2 cities being the prime beneficiaries. India stood third in the US Green Building Council's (USGBC) ranking of the top 10 countries for Leadership in Energy and Environmental Design (LEED) certified buildings, with over 752 LEED-certified projects across 20.28 million gross square meters of space. According to data released by Department of Industrial Policy and Promotion (DIPP), the construction development sector in India has received Foreign Direct Investment (FDI) equity inflows to the tune of US\$ 24.67 billion in the period April 2000-December 2017.

Government Initiatives

The Government of India along with the governments of the respective states has taken several initiatives to encourage the development in the sector. The Smart City Project, where there is a plan to build 100 smart cities, is a prime opportunity for the real estate companies. Below are some of the other major Government Initiatives:

- In February 2018, creation of National Urban Housing Fund was approved with an outlay of Rs 60,000 crore (US\$ 9.27 billion).
- Under the Pradhan Mantri Awas Yojana (PMAY) Urban 1,427,486 houses have been sanctioned in 2017-18. In March 2018, construction of additional 3,21,567 affordable houses was sanctioned under the scheme.

- Subsidy eligibility under Pradhan Mantri Awas Yojana (PMAY) covers up to Rs. 12 lakh of home loan—reduces effective home loan rates to 0.30% for mid-income affordable housing.
- Homebuyers can withdraw from their accumulated EPF corpus for both the down payment on their house as well as paying their home loan EMIs.
- Increased tax incentive reduces effective home loan yields to 0.30% for a 8.35% home loan.
- 100% tax exemption on profits from construction of affordable housing will attract organized developers and increase supply.
- PMAY projects to be out of purview of GST. Service tax exemption on construction of affordable housing projects will lead to reduction in prices, increasing affordability.
- The 7th pay commission increases the annual payout to 10mn government employees to up to Rs. 1 Tn per annum. Increased disposable income will have positive impact on the housing sector.

Budget 2018-19 proposals for Real estate

- Lower allocation for CLSS-MIG (Credit Linked Subsidy Scheme) component an indication of lower than expected demand for the subvention scheme. Allocation to MIG CLSS reduced from Rs 1000 crore in FY18 to Rs 900 crore in FY19 and revised estimate for 2017-18 at Rs 600 crore.
- Government will also establish a dedicated Affordable Housing Fund (AHF) in National Housing Bank, funded from priority sector lending shortfall and fully serviced bonds authorized by the Government of India.
- Long term capital gains on sale of REIT/Invits units will be applicable at 10% (in line with equity). However minimum long term holding period remains unchanged at 3 years. Marginally negative for the asset class.
- Government allows calculation of property gains taxes on properties transacted lower than circle rates if the value is within 5% range. Lowers tax incidence for transaction taking place at marginally lower than circle rate.
- Government will tax conversion of inventory into capital asset as business profit/gains. Fair market value of the inventory on the date of conversion to be considered as full value of consideration and holding period of capital asset will be considered from the date of conversion.
- Profits arising from a construction contract or a contract for providing services shall be determined based on percentage of completion method.

South India: Real Estate

A robust establishment of skill-based manufacturing industries has led to fast paced urbanization in south India, housing around 102.8mn people in just urban areas (27.3% of India's total urban population). Tamil Nadu, Andhra Pradesh, Karnataka and Kerala house close to 50% of the total number of SEZs in the country. Together with industrial growth, IT remains the dominant driver for the real estate market.

The growth potential in southern India is humongous. Tamil Nadu contributes approximately 10.93% to India's overall GDP and ranks 2nd among the 36 Indian States & Union Territories in terms of GDP contribution. Contribution of the southern states of India is nearly 31% of the GDP of India. The Real Estate sector in the South is also picking up on account of growth in sectors like Auto, Consumer goods, Power consumption & Cement in the recent past.

About Tirupur – Our core market:

Coimbatore – Manchester of South India

Coimbatore is the second largest city in Tamil Nadu and is advantageously located between tourist's attractions like Ooty, Kodaikanal and Coorg. Along with Textile, it also houses Engineering, Automobile parts manufacturing & IT/ITeS as the major industries.

PRIME URBAN DEVELOPMENT INDIA LIMITED

It was one of the 20 cities who were named in the Smart cities mission initiative of the Government of India. Central Coimbatore, adjoining an 8-lake network, is selected as the area for development under the Smart City initiative. In India owing to the huge demand, focus has now shifted to Tier II cities. Coimbatore is already witnessing an increased real estate demand.

The Residential sector is also witnessing positive traction with the increased commercial activity, coupled with the Smart City initiative and industrial demand. Demand for second home and retirement communities continues unabated. Areas of the city such as R.S. Puram, Avinashi Road, and Race Course, are considered as posh areas. Areas of Avinashi Road and Saravanampatti, Mettupalayam Road and Trichy Road are dominated by low-budget projects. Bus Rapid Transit System, Expansion of Airport are few factors that will provide growth opportunities. Around 3 special IT Economic Zones have been set up here, with the Government offering special schemes to promote real estate activity.

Demand for Commercial properties have been on an uptrend in Coimbatore, it was among the few Indian markets where office space uptake was positive in recent years. This demand was coming in from the SME's in the city.

The developers are trying to cater to the consumers according to their spending capacity by avoiding high end or super luxury launches in the market. With the positive sentiments on the city and its business-friendly environment real estate market will grow tremendously in Coimbatore.

At Prime Urban, we are optimistic about the growth opportunities prevalent in Coimbatore and will be seeking to exploit the same.

Chennai – a growing real estate market with vast opportunities

Known as the Detroit of India for contributing around 60% of the country's automobile exports, Chennai - the capital of Tamil Nadu - is also well-known for its port-centric businesses, engineering, manufacturing establishments and IT-ITeS companies. Chennai's economy is currently the 4th largest in India. According to Forbes Magazine, the city features in the top 10 fastest-growing cities in the world. Chennai also has a presence of numerous Fortune 500 companies, which leads to a massive employment generation.

Chennai residential real estate snapshot New unit launches in Chennai stood at 4,418 in 2017, with around 45,000 under-construction units. Old Mahabalipuram Road, Perumbakkam, Porur, East Coast Road (ECR) and Pallikaranai are among the most preferred micro markets, with residential property prices hovering in the range of INR 3,500 to INR 8,300/sf. Between 2013-2017, around 1.2 lakh units have been added to Chennai's residential market in Chennai.

Of the four zones (Central, West, North and South), South Chennai surpassed the others to emerge as the most rapidly-growing market, accounting for 65% of the city's total housing supply since 2013. On this front, South Chennai is followed by West Chennai with a contribution of 27%.

The presence of IT-ITeS establishments, SEZs and manufacturing units have been the primary growth stimulators for the southern region. In addition, rapidly developing infrastructure is boosting the residential real estate market along the Old Mahabalipuram Road (OMR), Thoraipakkam - Pallavaram Road (TPR) and Grand Southern Trunk (GST) Road.

Chennai has the lowest unsold inventory among top 7 cities in India, with its unsold stock of 27,000 units (as of Q4 2017) worth INR 17,500 crore. The estimated period for the unsold inventory in primary sales to get fully absorbed is approximately 32 months, compared to top metros of NCR and MMR which are likely to take 75 months and 61 months, respectively. South Chennai tops the unsold inventory chart, accounting for 69% of total unsold units in the city. However, this supply was unleashed to cater to the massive existing demand in this region, and absorption will be rapid.

The mid-income housing segment, consisting of units priced at between INR 40 - 80 lakh, accounts for 44% of the overall available inventory. This segment currently dominates the primary sales residential market in Chennai, followed by the affordable housing segment (units priced below INR 40 lakh) which accounts for 29% of the existing primary market supply. The considerable traction being seen in the affordable and mid-range housing segment is primarily due to the various schemes and incentives offered by the Government to promote its Housing for All mission.

Chennai's residential real estate market took a major body-blow from the floods in 2015 and the political instability in the consecutive years. As a result, it witnessed reduced new launches in 2017. With restricted supply and stable demand, absorption improved in 2017, and unsold inventory consequently decreased by 24% in Q4-2017 vis-à-vis Q4-2016. Despite the current sluggishness of the Indian residential property market, Chennai's housing sector market is gradually gaining new momentum on the back of continuous infrastructure upgrades and inward migration of working population responding to the increasing employment opportunities

“Annexure – B” to the Independent Auditors’ Report of even date of Standalone Ind AS Financial Statements of Prime Urban Development India Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Prime Urban Development India Limited (“the Company”) as on 31 March 2018 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining and understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as on 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

Subsequent measurement of financial assets depends on the classification i.e financial assets carried at amortised cost or fair value (either through other comprehensive income or through profit and loss). Such classification is determined on the basis of Company's business model for managing the financial assets and the contractual terms of the cash flows.

The Company's financial assets primarily consists of cash and cash equivalents, trade receivables, loans to employees and security deposits etc which are classified as financial assets carried at amortised cost.

PRIME URBAN DEVELOPMENT INDIA LIMITED

Amortised cost

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost.

A gain or loss on a financial asset that is subsequently measured at amortised cost is recognized in profit or loss when the asset is derecognized or impaired. Interest income from these financial assets is recognized using the effective interest rate method.

Impairment of financial assets

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. For trade receivables, the company provides for lifetime expected credit losses recognized from initial recognition of the receivables.

De-recognition of financial assets

A financial asset is de-recognised only when the Company has transferred the rights to receive cash flows from the financial asset or Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

B. Financial liabilities

Initial recognition and measurement

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction cost.

The Company's financial liabilities include trade and other payables.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term.

Gains or losses on liabilities held for trading are recognized in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risks are recognized in OCI. These gains/losses are subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognized in the statement of profit or loss.

De-recognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the term of an existing liability are substantially modified, such an exchange or modification is treated as de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amount is recognized in the statement of profit or loss.

2.17: Exceptional Items:

When an item of income or expense within profit or loss from ordinary is of such size, nature or incidence that their disclosure is relevant to explain the performance of the company for the year, the nature and amount of such items is disclosed as exceptional items.

21.02: Notes to the first time adoption:

a. Proposed Dividend

Under the previous GAAP, dividend proposed by the Board of Directors after the balance sheet date but before the approval of the financial statements was considered as subsequent events. Accordingly, provision for proposed dividend including dividend distribution tax was recognized as liability. Under Ind AS, such dividend is recognized when the same is approved by shareholders in the general meeting.

b. Re-measurements of post-employment benefit obligations

Under the previous GAAP, cost relating to post employment benefit obligations including actuarial gain/loss was recognized in Profit and Loss. Under Ind AS, actuarial gain/losses on the net defined liability are recognized in other comprehensive income instead of Profit & Loss.

c. Deferred taxes

Under previous GAAP, deferred taxes were recognized based on Profit & Loss approach i.e. on impact on difference between the accounting income and taxable income. Under Ind AS, deferred tax is recognized by following balance sheet approach i.e. tax impact on temporary difference between the carrying value of assets and liabilities in the books and their respective base.

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and based on the consideration of the reports of subsidiaries, which are companies covered under the act, the Holding Company and its subsidiary companies and associates, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Holding Company and its subsidiaries, considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
