SIGNIFICANT ACCOUNTING POLICIES

Notes -1

A. GENERAL INFORMATIONeneral Information

New Line Buildtech Pvt. Ltd. was incorporated on September 16, 2006.

B SIGNIFICANT ACCOUNTING POLICIES

1. **Basis of Accounting**

The financial statements are prepared under historical cost convention, on accrual basis, in accordance with the generally accepted accounting principles in India, the accounting standards.

2. **Use of estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities on the date of the financial statements and the results of operations during the reporting periods. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from those estimates and revisions, if any, are recognized in the current and future periods.

3. **Borrowing costs**

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are charged to the statement of profit and loss account as incurred.

4. **Taxation**

Tax expense, comprising of both current tax and deferred tax are included in determining the net results for the year. Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the prevailing taxation law. Minimum Alternative Tax (MAT) credit is recognized an asset only when and to the extent, there is reasonable certainty in future that the company will pay tax as per the normal provisions of the Income Tax Act, 1961 during the specified MAT credit is utilized in the year when normal Income Tax is higher.

Deferred tax is recognized for all the timing difference, subject to the consideration of prudence in respect of deferred tax assets. Deferred tax assets are recognized and carried forward only to the extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax can be realized. Deferred tax assets and liabilities are measured using the tax rates and tax law. That have been enacted or substantively enacted by the Balance Sheet dated. In situations, where the company has unabsorbed depreciation or carried forward losses under tax law, all deferred tax assets are recognized only to the extent that there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.

5. Impairment of assets

The Company assesses at each balance sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount and the reduction is treated as an impairment loss and is recognized in the profit and loss account. If at the balance sheet date there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical cost.

6. Revenue Recognition

The sale of stock in trade is recognized when significant risks and rewards of ownership are transferred or handing over possession to the buyer, retaining no effective control to a degree usually associated with ownership.

Other Income

The other income of the company arising from the interest accrued / received on fixed deposits. The same has been recognized as a time proportion basis and the rate applicable.

7. Inventory

Work in Progress (Land Development Rights and other expenses incurred on Project Land is valued at cost).

8. Contingent liabilities
