LETTER FROM THE CHAIRMAN

Mr. P. D. Patodia
Chairman and Managing Director

Dear Shareholders, I am very happy to share with you the performance of your Company for the financial year 2016-17.

FY16-17 was a year of Policy reforms. The Central government's commitment to lead the country on a growth path has led to the materialisation of various policy measures. The Government has taken several steps to revive the Realty sector to fulfil the Government's dream of providing Housing to all in the nation.

During the year, the Government undertook various ground breaking policy reforms such as according of Infrastructure status to Affordable housing, enforcement of the Real Estate Regulation Act (RERA), GST Act and Real Estate Investment Trust (REIT). These measures taken by the Government shows its dedication towards the development of Real Estate in India.

These measures will likely stimulate activity in the Real estate sector, bring in transparency, improve credibility, attract investment and cause a shift of consumers to the organised sector ultimately leading to creation of credible and quality real estate in India. The sector is expected to offer an opportunity of Rs. 1.25 Trillion approximately.

Your Company is mainly engaged in the Real Estate sector. I am pleased to inform you that despite tough business environment and the Demonetisation move of the Government, your Company has comfortably sailed through the tide and has given a satisfactory performance.

In FY18 we shall continue to focus on our Villas Project, the Onyx. I am pleased to share with you that Onyx was recently awarded the '**Best Project in Non-Metro Commercial Award**'. Magpie Estate Award accorded this award to our project. Needless to say, it adds enormously to our Brand Value and market standing.

The main focus of your Company is to develop Affordable Housing in the state of Tamil Nadu. Tamil Nadu is the 2nd most economically competitive states in India, one of the 3 most preferred states for business investments and is the 2nd largest contributor to India's GDP. Your Company enjoys unmatched goodwill in the city of Tirupur in the state of Tamil Nadu.

We are further looking to add projects in the affordable housing segment. This is likely to create a new momentum to our project execution and profitability. Given the Government incentives and regulatory push, this segment is likely to create far new opportunities for Real Estate sector.

Your Company's consolidated revenue for FY17 was Rs. 57 Cr. with EBITDA of Rs. 13 Cr. and the PAT stood at Rs. 10 Cr. The Board of Directors have recommended a dividend of 20% i.e Rs. 0.40 (Forty paise only) per Equity share of FV of Rs. 2/- each, subject to the approval of the shareholders at the ensuing Annual General Meeting. With the improving landscape on the back of the positive reforms the outlook for FY18 looks bright.

In the Textile division, our revenues in FY17 were Rs. 24 Cr with an EBIT of Rs. 0.6 Cr. Our products are well accepted in the export market where we enjoy trust and goodwill with our customers of many decades.

Best regards,

P.D. Patodia
Chairman and Managing Director

REIT has a huge opportunity in India. As per KPMG-Knight Frank March 2017 report, presently India has a rent yielding office inventory to the tune of 537 million sq ft, valued more than USD 70 bn. Apart from this, there are other properties like Shopping Malls, warehouses, school buildings etc. which are potential assets to be considered under REITs.

Government Initiatives

The Government of India along with the governments of the respective states has taken several initiatives to encourage the development in the real estate sector. Housing for all, infrastructure status to affordable housing are the prime opportunities for real estate companies.

Below are some of the major Government Initiatives:

Centre to build 1 crore houses under PMAY-G by 2019 – The Government of India has approved the construction of 1 cr houses with the financial implications of Rs 81,975 cr for the period 2016-17 to 2018-19 in March 2017. It has also has been estimated that 2.95 Cr more houses would need to be constructed to achieve the objective of '**Housing for all**' by the year 2022. To achieve the objective of '**Housing for All**', some of the features which has been incorporated are as follows:

- Availability of sufficient financial resources both in the form of budgetary support and borrowing from NABARD to meet the expenditure for construction of houses.
- Electronic transfer of assistance under Direct Benefit Transfer (DBT) to resolve problems of delayed payments and expedite completion.
- Comprehensive online monitoring through the scheme MIS-AwaasSoft.
- Inspection and Geo tagging of houses, through the mobile app-AwaasApp by beneficiaries to reduce delays.
- Increasing number of trained rural masons through Training, Assessment and Certification.
- Setting up of Programme Management Unit (PMUs) at state and sub state level to review progress on a daily basis, provide requisite technical support and facilitation and plug gaps in implementation using administrative funds available under the scheme.

PRIME URBAN DEVELOPMENT INDIA LIMITED

Infrastructure status to affordable housing

The Government of India has now provided infrastructure status to affordable housing, which is encouraging for developers since it ensures access to institutional credit which would reduce cost of borrowing for developers.

Also, government has tweaked the definition of affordable housing projects under the scheme of 100% deduction of profits from tax. Earlier flats in four metro cities with built up area of 30 sq meters and built up area upto 60 sq meters in other cities was being considered in the scheme. Now 'Built up area' has been changed to 'Carpet area' and 30 sq meters limit applies to only within municipal corporation limits of the four metros.

The affordable housing scheme is expected to benefit the sector in terms of easier capital for developers and lowering interest rate. Also, there is a provision of interest subvention of 4% and 3% on loans up to Rs 0.9 mn and Rs 1.2 mn respectively which is expected to boost for affordable housing.

Make in India Initiative - This initiative is expected to increase the purchasing power of an average Indian consumer, which would further boost demand, and hence spur development.

Budget 2017-18 proposals for Real estate

- Infrastructure status to Affordable Housing – boost for affordable residential sector
- National Housing Bank (NHB) will refinance individual housing loans of about INR200 billion (USD3 billion) in 2017-18
- Increase in investment in infrastructure and development projects
- Holding period for immovable assets reduced from 3 years to 2 years and indexation to be shifted from 1.4.1981 to 1.4.2001
- Capital gains tax liability changed for Joint Development Agreement (JDA) signed for development of property
- No cash transaction above INR 0.3 million permitted
- The government has made changes on the facility of subsidizing home loan interest payment to the buyers. Earlier it was applicable for the buyers earning up to Rs 6 lakh per annum, now it has been extended to the buyer earning up to Rs 18 lakh per annum.
- Abolition of Foreign Investment Promotion Board (FIPB)
- Introduction of innovative land-pooling mechanism for development of the new state capital of Andhra Pradesh

Real Estate Regulatory Bill has been effective from May 1, 2017

The real estate regulation and development act, 2016 became effective in the country on May 01, 2017. Under the bill, real estate sector would be governed by its own regulatory authority. The purpose of the bill is for more stricter compliance and transparency in the system. With stricter compliance in place, the frequency of future projects may go in the slow lane; but at the same time investment appetite is expected to go up which would eventually alter the ongoing demand and supply situation and which would eventually affect the pricing structure across the industry.

Existing supply of under construction properties including unsold inventory, which expects 12 or more months for the completion of the project, required to register under RERA. Also, RERA changes the way builder used to sell their inventory. Industry was selling properties earlier on the basis of 'Super built up area' need to sell the properties on the basis of 'Carpet Area'. Potential home buyers now can make decisions on better information. This will benefit branded and organized Real estate developers such as Prime Urban.

RERA- key features

Quick grievances resolution: Real estate industry has been unregulated before the existence of the RERA. The industry was affected by lack of consumer protection, inadequate consumer addressable system which also had an impact on the industry. The consumer can now refer to the regulator for any grievances. At the same time, builders can approach the regulator in case of payment default by the allottees.

Registration: Registration of the real estate projects would provide better transparency in project marketing and execution which is expected to benefit both developers and consumers.

Timely construction: Developer is required to put 70% of the money collected from customers into separate escrow account to attain and meet construction cost. This would ensure timely construction of the properties.

South India: Real Estate

South India market in leading southern cities will continue driven by IT/ITes growth. The need for housing as well commercial growth remained concentrated to these sectors. In terms of segmentation, it is expected to be concentrated on high end as well mid end segments. Cities in South India have shown relatively stable growth in the residential market segments and it remains as a value creation for future growth.

The growth potential in southern India is humongous. Tamil Nadu contributes approximately 10.93% to India's overall GDP and ranks 2nd among the 36 Indian States & Union Territories in terms of GDP contribution. Contribution of the southern states of India is nearly 31% of the GDP of India. The Real Estate sector in the South is also picking up on account of growth in sectors like Auto, Consumer goods, Power consumption & Cement in the recent past as there was 70% jump in the Housing sales in first quarter of FY17 as compared to the last quarter, out of which major part of the demand increase came from the major cities in Southern parts of the country.

About Tirupur:

Coimbatore – Manchester of South India

Coimbatore is the second largest city in Tamil Nadu and is advantageously located between tourist's attractions like Ooty, Kodaikanal and Coorg. Along with Textile, it also houses Engineering, Automobile parts manufacturing & IT/ITeS as the major industries.

It was one of the 20 cities who were named in the Smart cities mission initiative of the Government of India. Central Coimbatore, adjoining an 8-lake network, is selected as the area for development under the Smart City initiative. In India owing to the huge demand, focus has now shifted to Tier II cities. Coimbatore is already witnessing an increased real estate demand.

The Residential sector is also witnessing positive traction with the increased commercial activity, coupled with the Smart City initiative and industrial demand. Demand for second home and retirement communities continues unabated. Areas of the city such as R.S. Puram, Avinashi Road, and Race Course, are considered as posh areas. Areas of Avinashi Road and Saravanampatti, Mettupalayam Road and Trichy Road are dominated by low-budget projects. Bus Rapid Transit System, Expansion of Airport are few factors that will provide growth opportunities. Around 3 special IT Economic Zones have been set up here, with the Government offering special schemes to promote real estate activity.

Demand for Commercial properties have been on an uptrend in Coimbatore, it was among the few Indian markets where office space uptake was positive in recent years. This demand was coming in from the SME's in the city.

The developers are trying to cater to the consumers according to their spending capacity by avoiding high end or super luxury launches in the market. With the positive sentiments on the city and its business-friendly environment real estate market will grow tremendously in Coimbatore.

At Prime Urban, we are optimistic about the growth opportunities at offer in Coimbatore and will be seeking to exploit the same.

Chennai – a growing real estate market with vast opportunities

Chennai the fourth most populous metropolitan area in the country is expected to become a \$100 Billion economy by 2025 which is 2.5 times its current size as per Confederation of Indian Industry (CII). Along with being a major Automobile & Automobile component manufacturing hub it also hosts IT, Hardware manufacturing, Hospitality & Healthcare sectors. It is one of the top 5 hospitality markets in India.

North Chennai is predominantly industrial, while central Chennai is the most developed part of the city with established commercial and residential markets. South and West Chennai, previously predominantly residential areas, are fast turning into commercial zones, hosting a large number of IT and financial services companies.

Government's focus on providing excellent road connectivity along the Nodes such as Perungudi, Sholinganallur, Siruseri node has helped in the development of this region. Outer Ring Road has emerged as the best upcoming investment market with large townships. Outer Ring Road Phase II and Metro Rail Phase II will become operational late this year. The Guindy-Alandur cluster is expected to emerge stronger in the medium term with infrastructure push. The infrastructure projects like Outer Ring Road II, Chennai Metro, Mass Rapid Transit system & Chennai Monorail are expected to prove beneficial for the real estate demand.

PRIME URBAN DEVELOPMENT INDIA LIMITED

Residential market was affected due to Demonetization, extreme weather & political uncertainties leading to a 31% fall in demand on a year on year basis in Q4 FY17. However, there was good development interest in locations such as Kelambakkam, Otiambakkam, Mahindra World City & Seruseri. Over half of the units launched during H2 2016 was in South Chennai Micro market. Chennai market currently carries close to 2 years of unsold inventory.

Commercial Real estate saw huge leasing activity off late despite space crunch. IT/ITeS sector is the largest consumer, manufacturing & other sectors are increasing their share gradually. Chennai office market is expected to continue its sustained trends in year 2017. SBD locations such as Perungudi, Guindy & Taramani continue to witness above average rental growth as the vacancies drop to 4% in SBD & 12% in SBD OMR. Due to low available inventory, the rentals may see appreciation. Chennai - Bengaluru Industrial Corridor is also likely to lead to an increase in demand.

Mumbai – Affordable Housing market opportunities

Mumbai, one of the major urban centers of the country and the capital of Maharashtra state, has been facing severe housing problem due to rapidly growing city population (both due to natural growth and migration) and the consequent higher house prices. Affordability is a relative concept since what may be affordable to one section of the society may not be affordable for others and city like Mumbai is no exception. Greater Mumbai has an acute adequate housing problem and lack of space, with 7.7 per cent having no exclusive room and a further 57.3 per cent living in just one room. This provides an opportunity for developers engaging in affordable housing. The areas which are vital for affordable housing opportunity in Mumbai are Boisar, Palghar, Shahapur, Vasind, Badlapur, Neral, Karjat, Khalapur. Also some of the key developments like Metro railway connectivity in Navi Mumbai expected to drive the demand for affordable housing in that area.

Factors affecting affordability in Mumbai:

- Cost of Land
- Demand for upfront payment
- Incremental construction issues

Opportunities for Growth

Real Estate sector in India has been on the verge of major transformation because various regulatory related as well as development related announcements and initiatives by Government of India. These direct initiatives coupled with indirect factors such as downward trend in inflation, govt focus on improvement of rural income would provide humongous opportunities in the real estate sector.

Various opportunities lie to deepen the Real estate sector -

- **Housing for All** – Housing in India varies significantly and reflects socio-economic mix of its large population. The central government aims to provide housing for all by 2022. The housing need is almost equally distributed in urban and rural areas and primarily consists of affordable houses. The scheme envisages 10mn homes to be built across India by 2019 and further 25 mn to be built to make sure accomplishment of the housing for all scheme. This move will create large and scalable opportunities for home builders.
- **Easing of FDI in Construction Industry** – Foreign direct investment (FDI) is a major source of non-debt financial resource for the economic development of India. Foreign companies invest in India to take advantage of relatively lower wages, special investment privileges such as tax exemptions, etc. The Government of India has amended the FDI policy regarding Construction Development Sector. The amended policy includes easing of area restriction norms, reduction of minimum capitalization and easy exit from project. Further, to provide boost to low cost affordable housing, it has indicated that conditions of area restriction and minimum capitalization will not apply to cases committing 30 per cent of the project cost towards affordable housing. FDI will help Real Estate players to lower their cost of capital, reduce timelines from acquisition of land to launch of project, increase exposure to large townships thereby leading to higher development and industrial activity in the country.
- **Government Allocation** – The Government has allocated large sums for Rural Housing through NHB. This will increase flow of capital for affordable housing for the rural poor besides improving infrastructure in rural areas.
- **Commercial activities pick up** – Lower borrowing rates, rising in income will lead to higher investments in commercial space as well as residential houses leading to overall uptick in Real Estate industry. Also, the regulation like RERA would provide better transparency in the project execution of real estate assets which will prompt higher investments.
- **Urbanization and new cities a twin opportunity**- Relocating to urban areas for search of better opportunities is a common phenomenon. According to 2016 World Cities Report issued by the UN's department of economic and social affairs, India will have 7 cities with population of over 10 million by 2030 and here lies a twin opportunity in terms development of existing major cities as well development of new cities. Urbanization has led to a surge in development activities causing for an eruption of opportunities for the real estate developers.
- **Accelerating Economy in India and Tamil Nadu** – Indian economy has outshined the World economy growth by a wide margin. India's demographic and need to improve infrastructure coupled with availability of skilled labour makes it a one-stop-shop for investors. Tamil Nadu has played an important part in economic growth for its citizens. Availability of large educated work force is leading to many Global companies to set up shop in Tamil Nadu across various sectors such as Auto, Textiles, IT-ITES, KPO, Renewables and many others. This provides for a continuous need for housing stock especially organized housing which is a big boon for real estate developers.
- **Nuclear Families** – This is a one of the important factors driving India's growth. The growth in nuclear families has been rising which is driving consumption in the country. The real estate is very optimistic for this opportunity. Increased affinity towards branded and organized housing will further boost the real estate developers.

RISKS & CONCERNS

Though the Real estate sector holds lot of potential for positive performance it has direct correlation with India's economy and does possess some risks & concerns

- **Liquidity risk:** Liquidity of real estate property is one of the major risk for the sector. The time required for liquidity of real estate property can vary depending on the quality and location of the property.
- **Property market transparency risk:** The Indian property market has low transparency when compared to developed real estate markets. The market transparency is expected to improve because of RERA implementation, however reliable and consistent information on the Indian property market is still not easily available.
- **Macroeconomic risks:** The real estate market is inherently a cyclical market and is affected by macroeconomic conditions. The factors like Interest rate, inflation and exchange rate risks are amongst the important macroeconomic indicators to assess risks related to the sector. These risk factors can have a long-lasting impact on the development of the real estate sector.
- **Regulatory risks:** The real estate sector in India is regulated by the central state and local governments. Real estate developers are required to comply with several laws and regulations including policies and procedures established and implemented by local authorities in relation to land acquisition, transfer of property, registration and use of land etc.
- **Manpower and material cost risk:** The delay in projects is a major source of this risk since it leads to cost overruns of the project.
- **Performance of IT/ITES sector:** IT & ITES are large consumers of commercial estate. India's prowess in this sector has led to the emergence of many large-scale developments and IT zones in many parts of the country. Any slowdown in this sector could impact the performance of real estate sector especially Commercial real estate.

Annexure - B to the Independent Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Prime Urban Development India Limited ("the Company") as on 31 March 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as on 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

Annexure - A to the Independent Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31 March 2017, we have audited the internal financial controls over financial reporting of Prime Urban Development India Limited ("the Holding Company") and its subsidiary companies and its associates which are companies incorporated in India and firms, as of that date.

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.
